

AALIYA MANYAR

Java Full-Stack Developer

9699162028 | aaliyamanvar05@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | Wagholi, Pune – 412207

SUMMARY

Java Full-Stack Developer skilled in Spring Boot, React.js, and MySQL, with experience building scalable, real-time web applications end-to-end. Internship exposure to cloud data engineering and cybersecurity. Focused on writing clean, production-grade code and shipping features that work.

SKILLS

Languages: Java, JavaScript, Core Python

Backend: Spring Boot, Spring MVC, Spring Data JPA (Hibernate), Spring Security, REST APIs, Node.js

Frontend: React.js, HTML, CSS, Bootstrap, Angular

Databases: MySQL, MongoDB, PostgreSQL, RDBMS

Tools: Git, GitHub, Maven, VS Code

PROJECTS

ChatWave – Cross-Platform Real-Time Messaging App

2026 — Ongoing

Tech Stack: React.js, JavaScript, Vite, Tailwind CSS v4, WebSocket Gateway, Redis, Node.js

- Engineering a cross-platform messaging app with real-time 1:1, group, and topic-based chat, using a responsive layout that adapts between desktop and mobile from one codebase.
- Designing Wave Rooms — group chats that auto-archive after inactivity via a scalable delayed-job architecture, with manual revive and live status updates.
- Building Voice Waves, a scrubbable waveform voice-messaging system with drag-to-seek playback and timestamped inline replies.
- Architecting the core data model and REST/WebSocket API layer with end-to-end encryption, plus cross-device sync for drafts and active chats.

SAWARI – Women Safety-Focused Ride Sharing Platform

2026

Tech Stack: React.js, JavaScript, HTML, CSS, Spring Boot, REST API

- Engineered a role-based ride-sharing platform focused on enhancing safety and reliability for women commuters through secure user, driver, and admin workflows.
- Implemented role-based authentication and protected routing, plus a driver/user verification system with document submission and admin approval.
- Integrated an SOS emergency alert system with instant trigger and monitoring capability to enhance rider safety.

EXPERIENCE

Data Engineering Intern — EduSkills Foundation (AWS Academy)

May 2025 – Jun 2025

- Built AWS-based data pipelines and ETL workflows using Amazon S3, Glue, and Redshift.
- Processed large datasets and automated data workflows using SQL, AWS Lambda, and cloud-native services following AWS best practices.

Cybersecurity Intern — Palo Alto Networks

May 2024 – Jun 2024

- Conducted vulnerability assessments and threat analysis using tools such as Nessus, OpenVAS, and SIEM platforms.
- Analyzed attack vectors and applied security practices aligned with NIST and ISO 27001 frameworks; participated in penetration testing and incident response simulations.

EDUCATION

JSPM University — Bachelor's Degree in Computer Science

2023 – 2026 | CGPA 8.43

Ashok Vidyalaya and Jr. College — HSC

2021 – 2023 | 61.67%

Shri Shivaji Vidyalaya — SSC

2020 – 2021 | 89.40%

CERTIFICATIONS

- Data Engineering Virtual Internship — AWS Academy (2025)
- Cybersecurity Virtual Internship — Palo Alto Networks (2024)
